

STOP DIGITAL IDs

Eventually, all personal info (finances, medical, social media activity, etc.) will be tied to your digital ID.

Dangers of Digital IDs

1. **Eliminates Privacy and Expands Surveillance.** With more and more personal data connected to one digital ID, transactions and activities that used to be private will be surveilled, tracked and cross referenced.
2. **Limits Financial Freedom:** Your transactions will not only be monitored, but banks/gov't/corporations will also have the power to restrict purchases or to cut off all access to your money—an excellent way to suppress dissent.
3. **Coerces Compliance:** Centralization of all your personal data makes it easy for gov't/banks/corporations to monitor, regulate and even influence your behavior via rewards or penalties (such as losing access to goods, services or other basic rights).
4. **Reduces Autonomy:** If your digital ID gets lost, flagged or malfunctions, your life could grind to a stop given banking, medical, housing, education, travel, etc. will be tied to it.
5. **Increases Inequities:** Immigrants without documentation, people without smartphone or choose not to participate in digital IDs will be marginalized with limited access to healthcare, banking, jobs, etc.

REJECT REAL IDs

Real ID is the first step toward a national digital ID. 48% of Americans don't have a Real ID. That percentage can grow if those with Real IDs replace them.

You Don't Need a Real ID to Fly

The current federal deadline for Real ID is May 7, 2025, after which a "regular" driver's license won't be valid at airports. However, you can use your passport instead. Don't have a passport? A first-time passport card, valid for domestic air travel, is only \$30—that's cheaper than a Real ID.

Check Your Driver's License—Real ID or FNC?

Real ID License:
Bear with Star

FNC License:
No Star; Federal Limits Apply text

How to Get Rid of Your California Real ID

1. Schedule an in-person appointment at your local DMV [DMV.ca.gov/]
2. Arrive before your appointment time. Use a DMV computer to fill out an application. Select "correct or update license", then select "other" and write in that you want to change from a Real ID to a Federally Non-Compliant license. Write down/take a photo of your confirmation number at the end.
3. When called by a clerk, give your confirmation number and say you want to change from a Real ID to an FNC. This is an unusual request, so the clerk may be perplexed or go on autopilot, processing another Real ID. Remind them you want an *FNC* license.
4. Get your photo taken (required whenever there's a change to your license). Your new license will arrive in the mail in about 4 weeks.

Note: If your Real ID is about to expire, ask how to both renew *and* change to an FNC (otherwise your new license will have the old expiration date).

**Together we can stop
Real IDs and Digital IDs.
Do not comply. Opt out.**
